

MEDICAL COUNCIL OF CANADA LE CONSEIL MÉDICAL DU CANADA

OBJECTIVES ONLINE WEB SERVICE

Purpose

The purpose of this document is to describe the web service interface to the Medical Council of Canada (MCC) Examination Objectives.

Background

The web service interface allows users to easily consult the various Objectives documents, including roles and presentations (the latter considered part of the "Expert" role). A search facility on our main medical expert Objectives page allows both simple and complex searches.

The web service offers documents in both XML and JSON format.

URLs for the Objectives web service documents
